CORONAVIRUS PREVENTION

WASH HANDS

USE SOAP

AVOID CROWDS

WEAR MASK

NO HANDSHAKES

USE SANITIZER

Call on all countries to present "ambitious targets" by 2030 and to strive for climate neutrality by 2050.

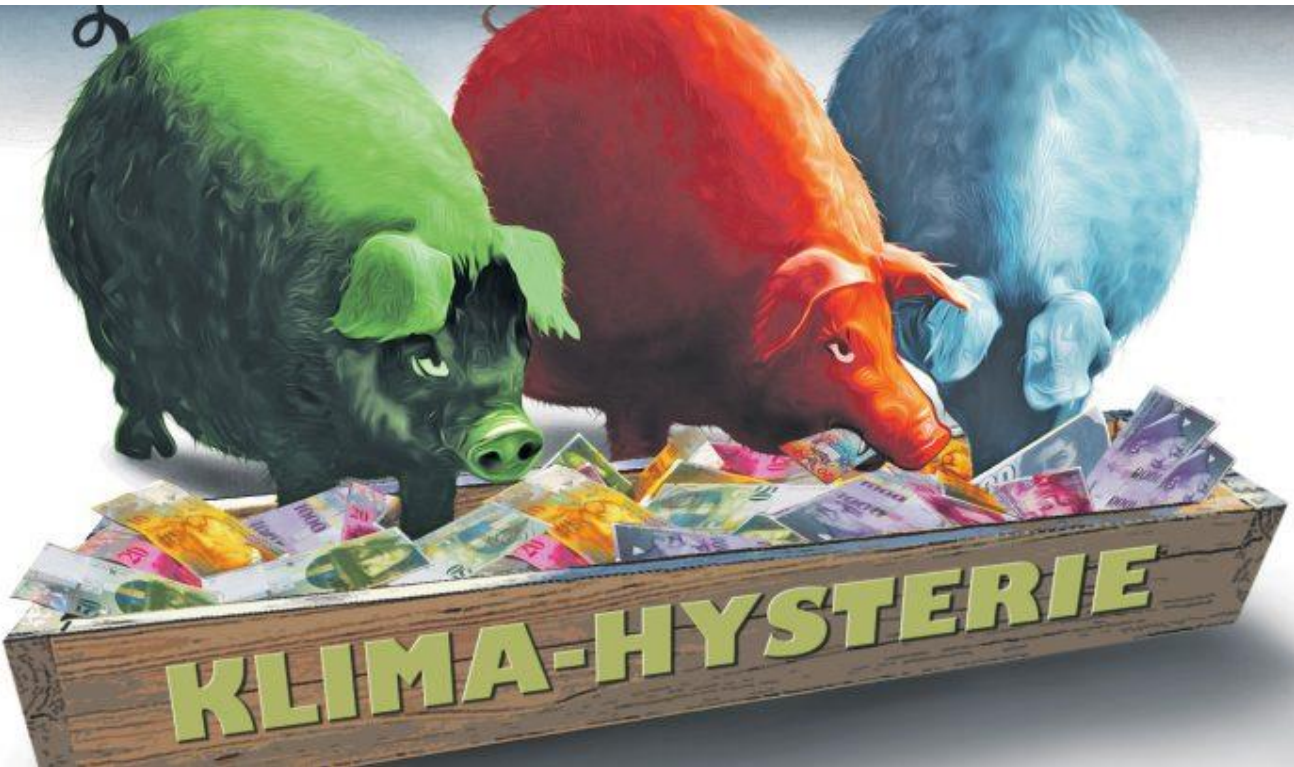

The current commitments of the states are far from sufficient to achieve the goal of the Paris Climate Agreement

- To get back on track to limit global warming to **1.5 degrees**
- To set robust **rules** for the implementation of the agreement
- To raise the **financial resources** to make our common goal a reality

Research has not yet been able to provide any proof that the man-made share leads "significantly" to global warming.

Even measures costing billions have virtually no impact on the global climate

Rot-grüne Verlogenheit

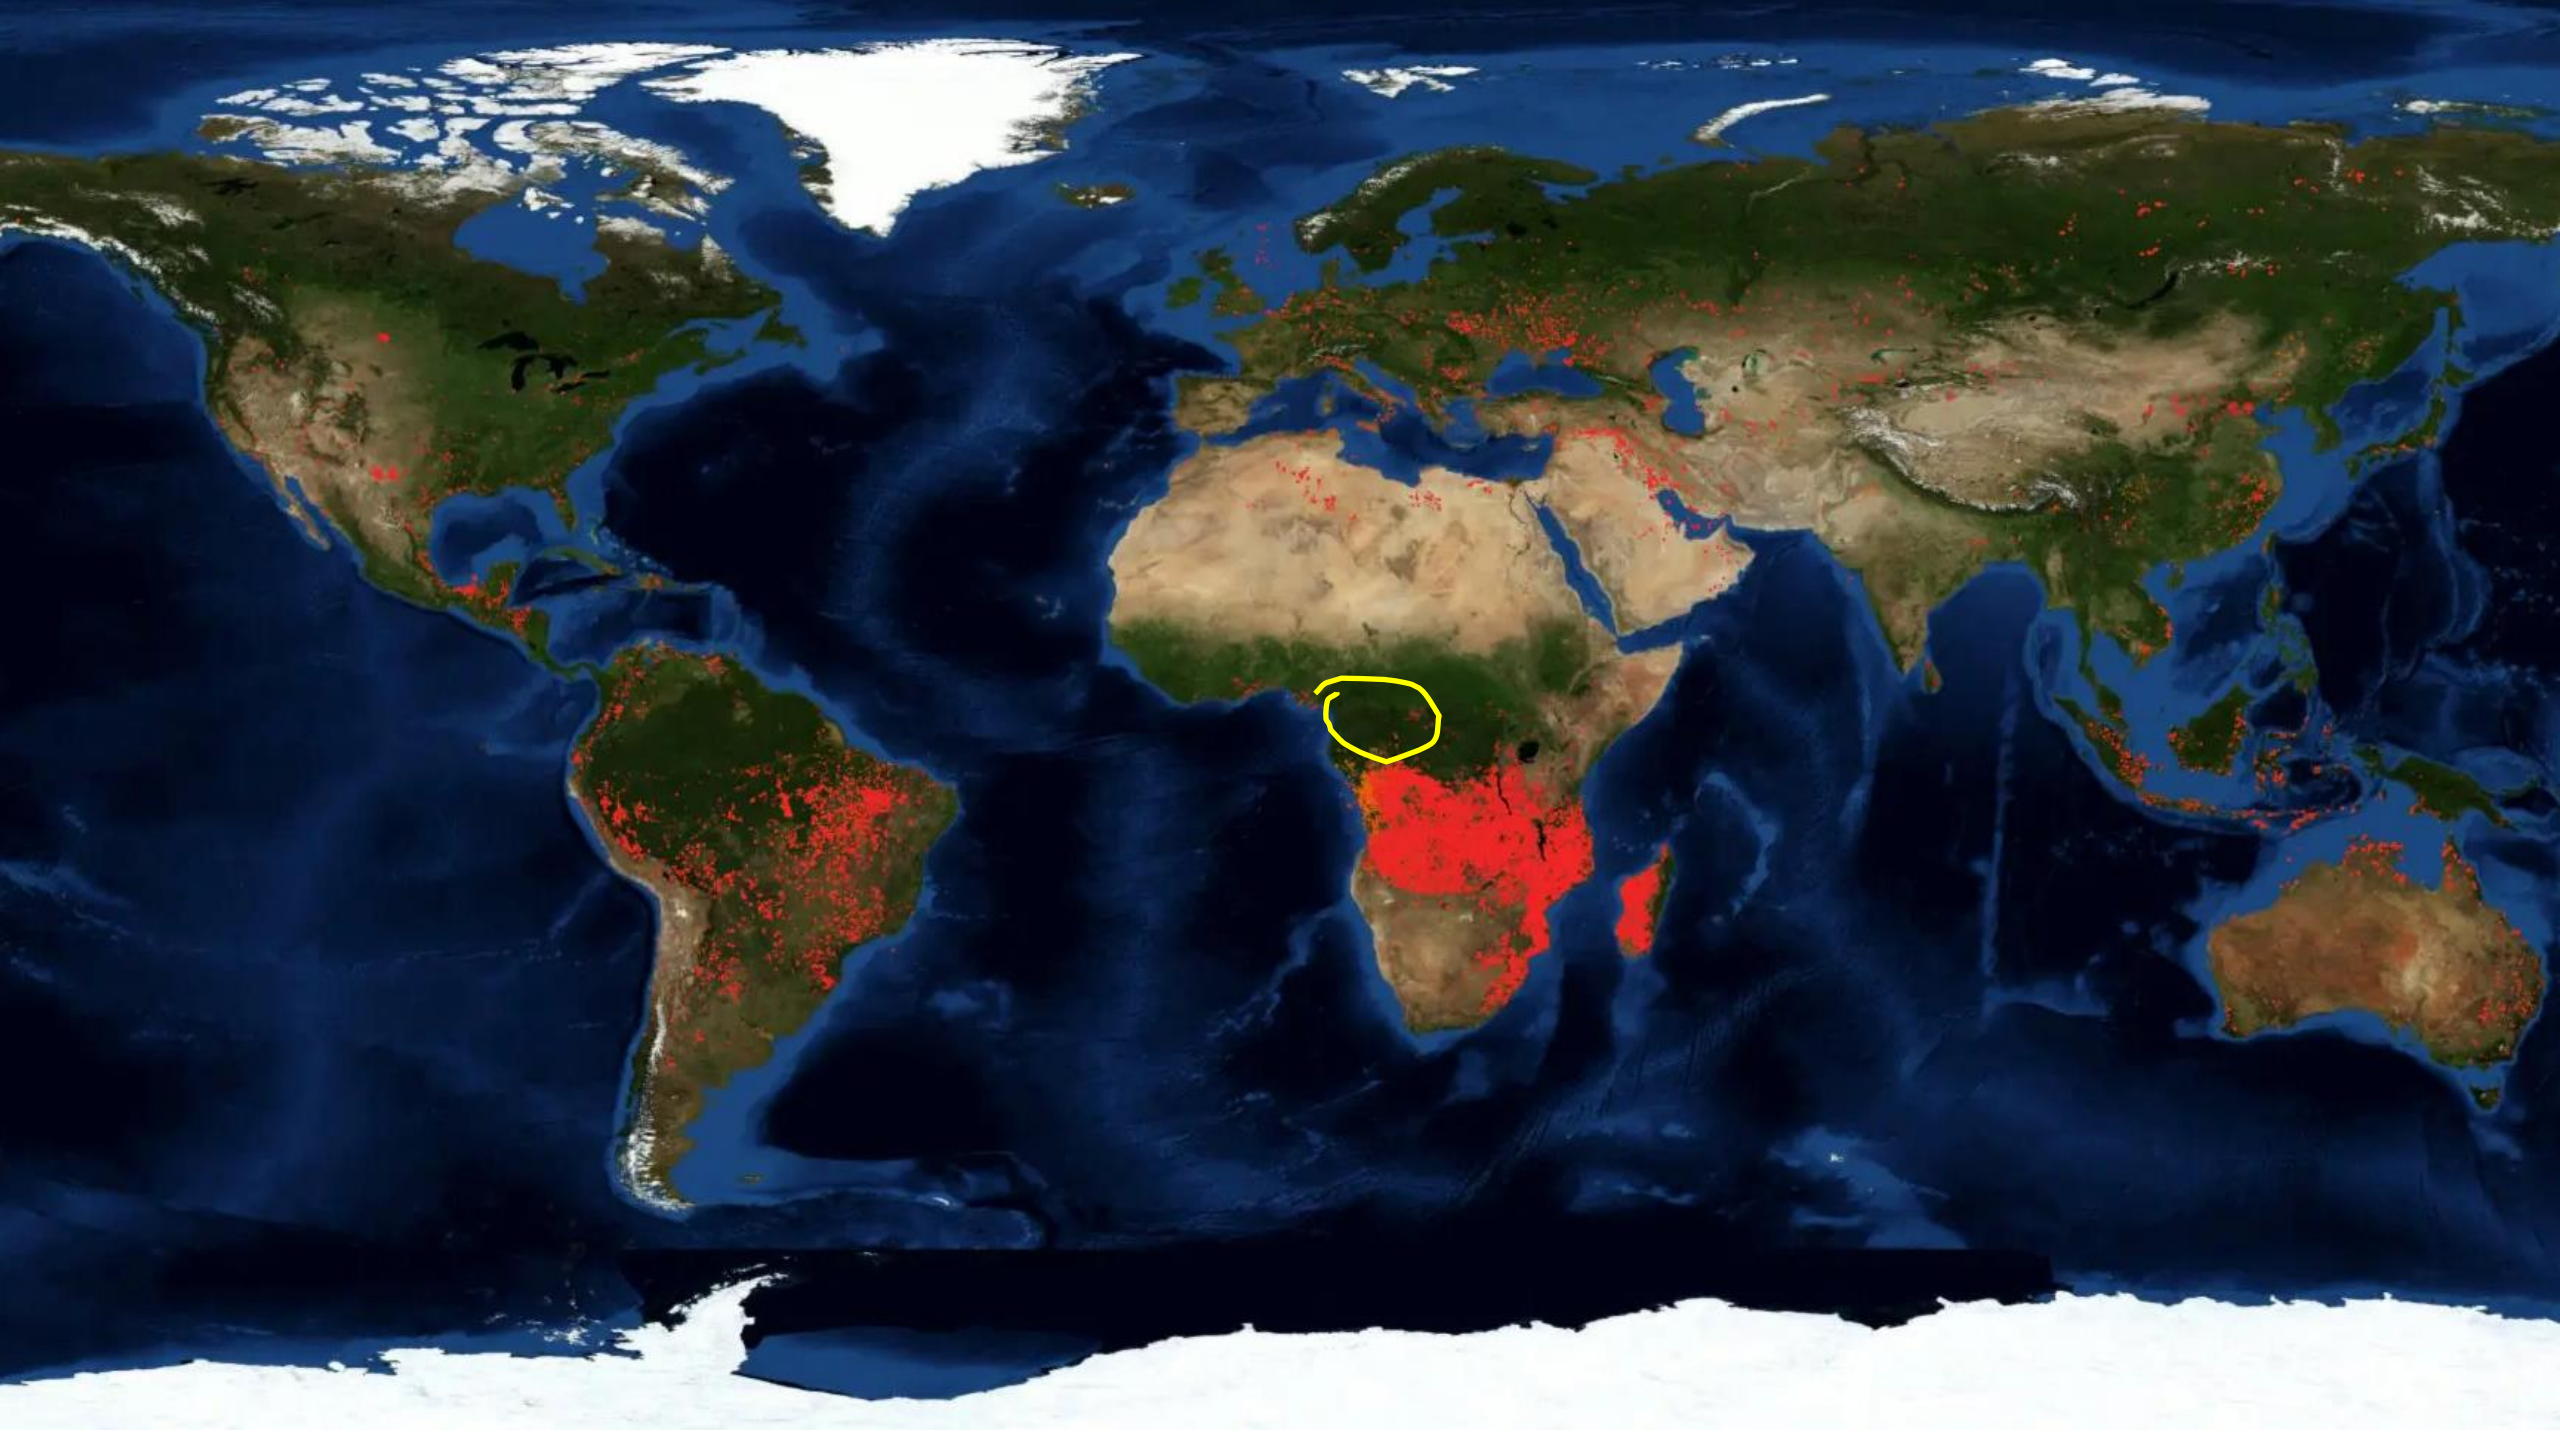

**1 Million Zuwanderer
= 59 Milliarden Liter
Wasserverbrauch!**

Durch die masslose Zuwanderung sind in den letzten 13 Jahren rund 1 Million Einwanderer zusätzlich in unser kleines Land gekommen. Sie verbrauchen jährlich rund 59 Milliarden Liter Wasser. Wasser, das unseren Bauern im Sommer fehlt! Das schadet der Umwelt in der Schweiz ganz direkt und vernichtet unsere Ressourcen!

**Wer die Umwelt in der Schweiz schützen will,
muss die Masseneinwanderung bekämpfen!**

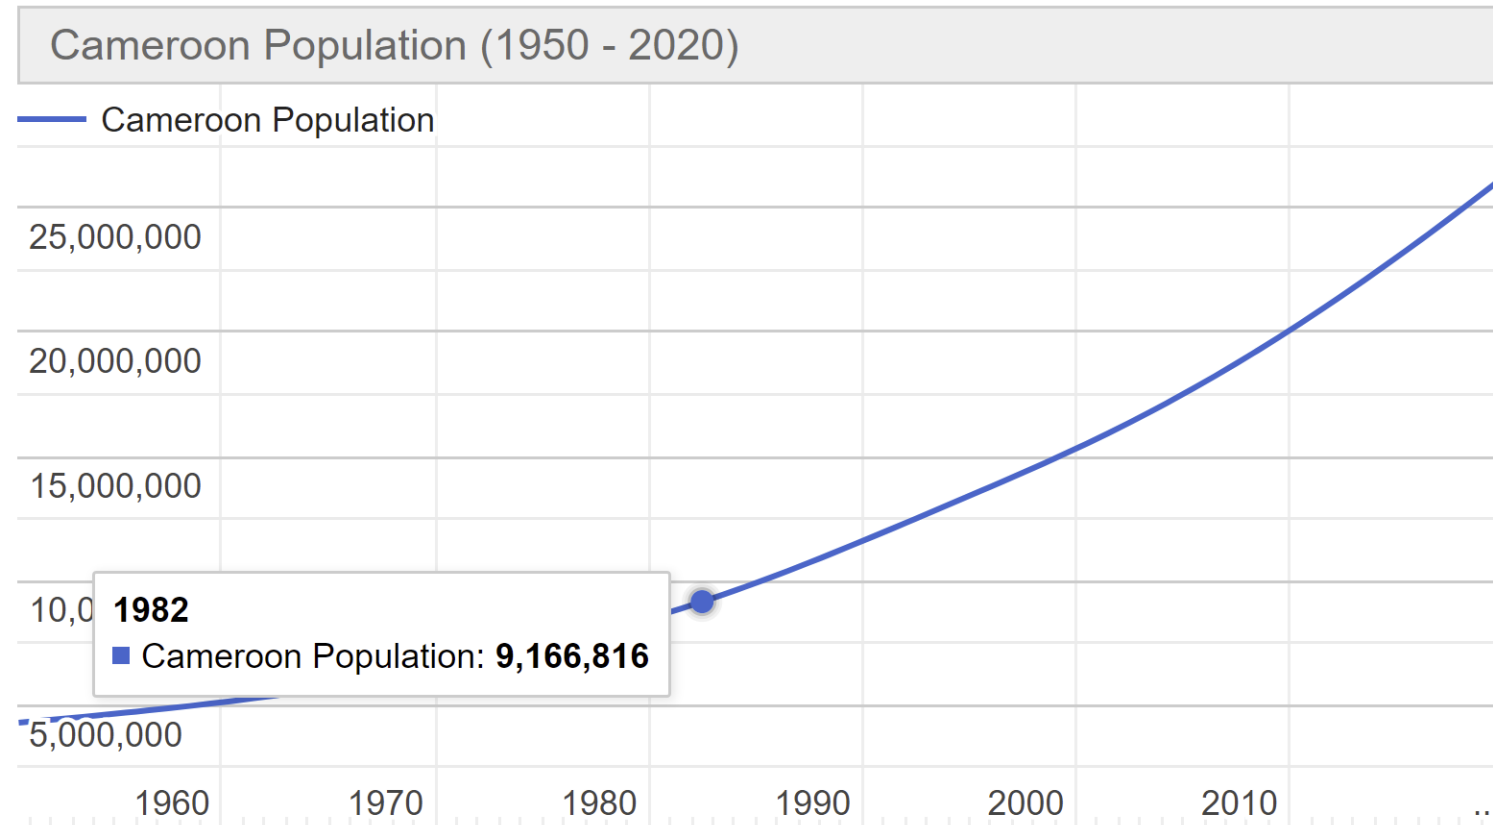

Schweizerischer Verein des Gas- und Wasserfaches

Prevention of the next Pandemic

- **Effective vaccines within 100 days**
- **Manufacture enough doses in 200 days**
- **Speed vaccination campaigns**
- **Early-warning systems**
- **Monitoring**
- **Strengthen public health systems**
- **Coordinate actions internationally**
- ...

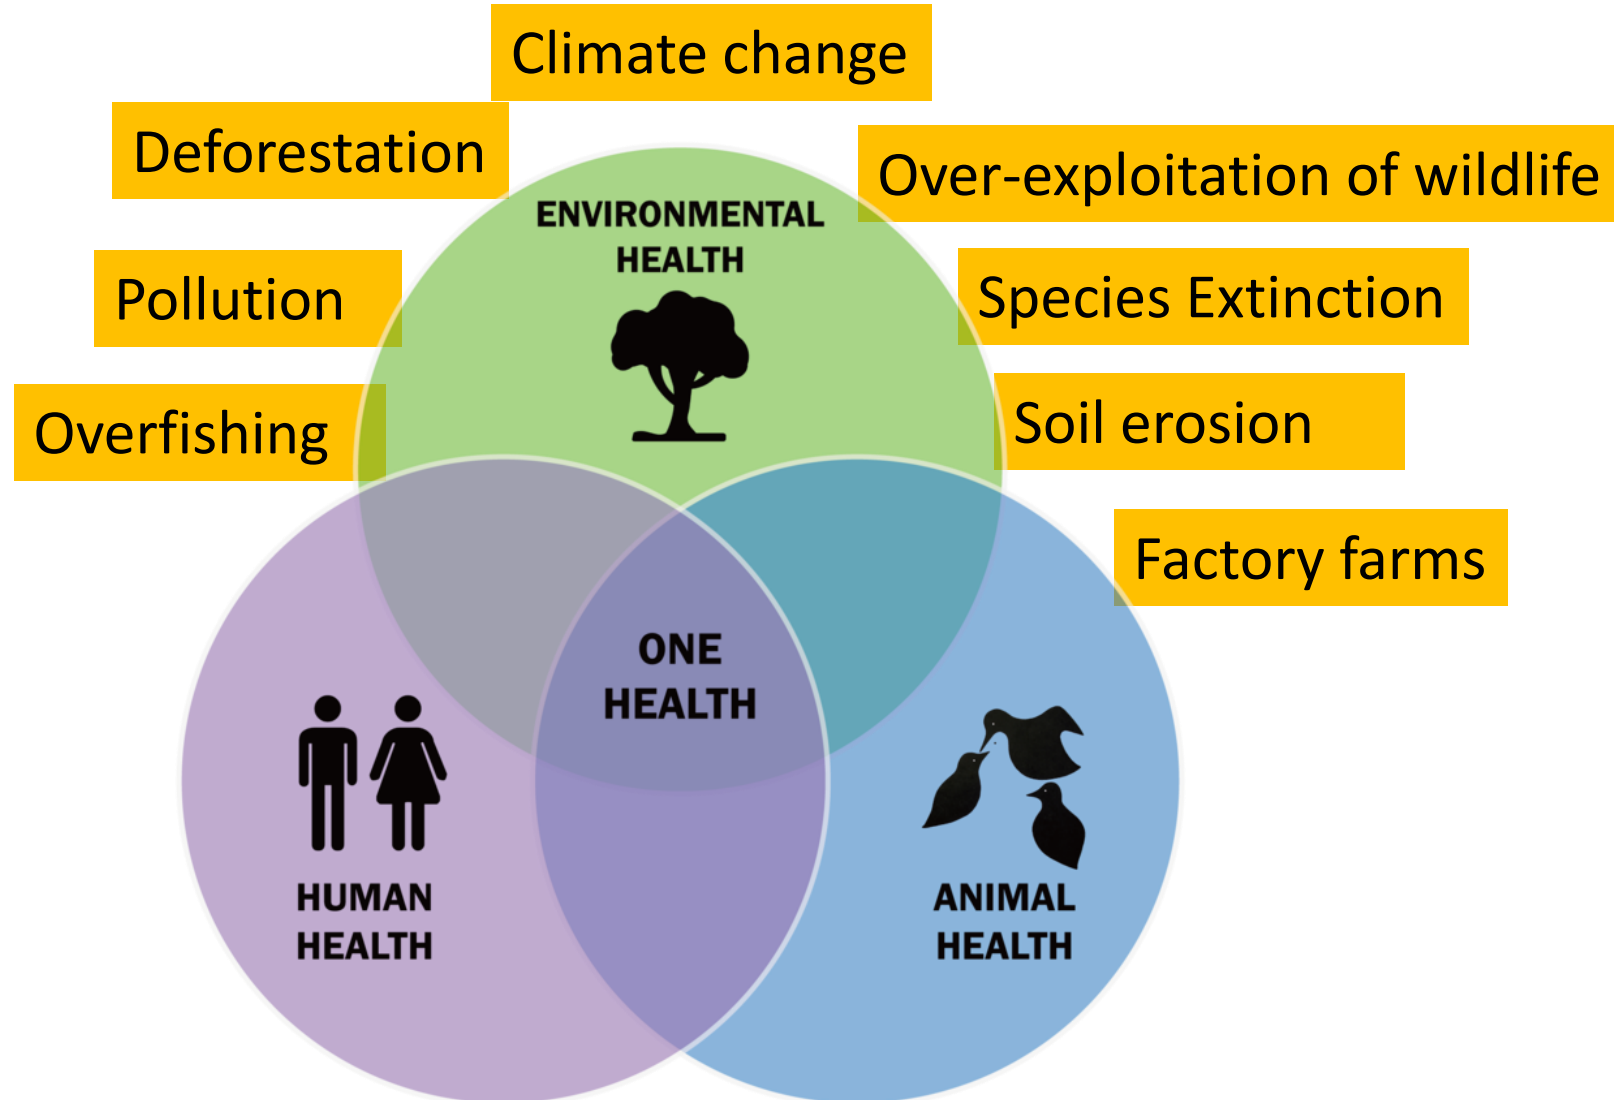

Prevention of the next Pandemic

Root causes:

- Contact with disease vectors
- Demand for animal protein
- Exploiting wildlife
- Destroying our ecosystems
- Agricultural intensification
- Etc...
